

COVID-19: **RETURN TO BOCCE PLAN**

A STRATEGIC APPROACH TO THE RETURN OF BOCCE

AN OFFICIAL BOCCE AUSTRALIA PUBLICATION

PURPOSE

This resource has been developed to assist Bocce State Federations, Regional and clubs across Australia to plan for the recommencement of training, competitions and programs in a safe, responsible and low risk manner.

Important note: State and Territory governments and their public health authorities are responsible for decisions about the resumption of sporting activities in each jurisdiction, both at the professional and community sport level.

WELCOME

Frank Funari
President & CEO,
Bocce Australia

AS PRESIDENT AND THE CHIEF EXECUTIVE OFFICER OF BOCCE AUSTRALIA (BA),

I am pleased to provide you with the following COVID-19: Return to Sport Plan as part of BA's overall response to this global pandemic. This plan outlines the strategic objectives for our stakeholders to better understand what we've created in order to ensure the health of bocce as we begin to move into a post Covid world.

For the past few months, Bocce Australia with our State Affiliates have been working to support all our State, Territory, Regional Affiliates and members dealing with these extraordinary challenges. It is more than the financial strain, there has been a huge emotional toll.

So, it was with purpose that Sport Australia brought together all the sports to focus on how best to help the nation bounce back with sport. Bocce Australia were involved from the first meeting and we were able to work closely with Sport Australia and have our input into the Return to Sport Toolkit and 'State of Play' updates, moving a step closer to the resumption of all community sport.

Sport, I believe, can play a prominent role in lifting the nation's energy and spirits and Bocce Sport is an ideal sport for this task. This was acknowledged at the forum in that Bocce was seen as one of the best all-inclusive sports as it can be played by all ages, all abilities, all genders and is a non-contact sport, which is so relevant in today's COVID-19 world. Sport Australia Return to Sport Toolkit includes a suite of resources to help sporting organisations get ready to recommence training, competitions, and programs in a safe, responsible, and low risk manner. With the similarities between Bocce Sport to that of Lawn Bowls, Bocce Australia decided to line up our processes to that of Lawn Bowls return to sport principles and guidelines. So, when viewing the toolkit look for Lawn Bowls.

This is no regular return to sport, like a new season. We cannot blow a whistle and just re-start play, expecting things will immediately return to normal, as we have always known it. That is why the Toolkit has been developed, with checklists that give our community clubs guidance. They are adaptable for small to large organisations, with templates that everyone can customise to their own circumstances.

On behalf of all at BA, we wish our bocce community all the very best during these times and we hope that what has been provided within this plan, as well as the online Toolkit, will provide some useful information and resources that may assist.

*Bocce Australia 'Return to Bocce' plan and some of the excerpts in the program are from Sport Australia and Bowls Australia Reboot **Sport Framework** and we thank both organisations for their support and use of material. support*

Information Coronavirus-Covid19

OVERVIEW

The COVID-19 pandemic has caused a great strain on the sports industry along with all other business globally. The transition back to a somewhat “normal” working environment will be a challenging task and will require the typical office to adopt new measures focused social distancing and personal hygiene.

Bocce Australia (BA) are following all recommendations provided by the World Health Organisation (WHO) along with the recently announced Australian Institute of Sport (AIS) Framework for Rebooting Sport in a COVID-19 Environment.

The following guidelines have been issued by BA as part of its response to ensuring bocce returns to the Australian sporting landscape as soon as practically possible, while safeguarding the health and safety of its participants. A part of this document will incorporate ongoing health and hygiene requirements to ensure that as a sport we are collectively providing a safe environment for those involved.

The framework provided within this publication will act as an ongoing strategy to achieve necessary standards moving forward, as well as encouraging and supporting the State and Territory Associations (STAs) to assist their own respective stakeholders as we move into a new way of delivering our sport.

To access any ongoing information and data within Australia relating to the COVID-19 pandemic, refer to the following Department of Health website:

www.health.gov.au/news/health-alerts/novel-coronavirus-2019-ncov-health-alert/coronavirus-COVID-19-current-situation-and-case-numbers

COVID-19 RESPONSE PLAN: IN THE WORKPLACE

Although BA have a responsibility to ensure that the sport of Bocce returns to the sporting calendar in Australia quickly, it is also just as critical that we ensure safe and practical measures within Clubs and venues, so that we can collectively continue to provide a high level of service for all Bocce players.

By establishing some guidelines within the BA workplace, as well as within our STAs, we aim to provide a safe and clean environment. The below principles have been developed for our organisation to enable our people to continue delivering the sport.

Appendix 1 of this document provides some useful templates that can be utilised in the workplace to encourage and educate staff and visitors on best hygiene practices and information on reporting cases of COVID-19.

NATIONAL COVID-19 SAFE WORKPLACE PRINCIPLES

Safe Work Australia recognises that the COVID-19 pandemic is a public health emergency, that all actions in respect of COVID-19 should be founded in expert health advice and that the following principles operate subject to the measures agreed and implemented by governments through the National Cabinet process.

1. All workers, regardless of their occupation or how they are engaged, have the right to a healthy and safe working environment.
2. The COVID-19 pandemic requires a uniquely focused approach to work health and safety (WHS) as it applies to businesses, workers and others in the workplace.
3. To keep our workplaces healthy and safe, businesses must, in consultation with workers, and their representatives, assess the way they work to identify, understand and quantify risks and to implement and review control measures to address those risks.
4. As COVID-19 restrictions are gradually relaxed, businesses, workers and other duty holders must work together to adapt and promote safe work practices, consistent with advice from health authorities, to ensure their workplaces are ready for the social distancing and exemplary hygiene measures that will be an important part of the transition.
5. Businesses and workers must actively control against the transmission of COVID-19 while at work, consistent with the latest advice from the Australian Health Protection Principal Committee (AHPPC), including considering the application of a hierarchy of appropriate controls where relevant.
6. Businesses and workers must prepare for the possibility that there will be cases of COVID-19 in the workplace and be ready to respond immediately, appropriately, effectively and efficiently, and consistent with advice from health authorities.
7. Existing state and territory jurisdiction of WHS compliance and enforcement remains critical. While acknowledging that individual variations across WHS laws mean approaches in different parts of the country may vary, to ensure business and worker confidence, a commitment to a consistent national approach is key. This includes a commitment to communicating what constitutes best practice in prevention, mitigation and response to the risks presented by COVID-19.
8. Safe Work Australia (SWA), through its tripartite membership, will provide a central hub of WHS guidance and tools that Australian workplaces can use to successfully form the basis of their management of health and safety risks posed by COVID-19.
9. States and Territories ultimately have the role of providing advice, education, compliance and enforcement of WHS and will leverage the use of the SWA central hub in fulfilling their statutory functions.
10. The work of the National COVID-19 Coordination Commission will complement the work of SWA, jurisdictions and health authorities to support industries more broadly to respond to the COVID-19 pandemic appropriately, effectively and safely.

For any further information regarding how you can implement strategies within your working space to encourage a safer working environment for all you can do so by going to the following website:
www.safeworkaustralia.gov.au/COVID-19-information-workplaces

COVID-19 RESPONSE PLAN: AS A SPORT

Sport is a key component of Australia's way of life. It is more essential than ever that all sports begin to plan for a phased return back to safe play, so that Australians can once again experience their weekly tradition of watching their favourite teams compete or participating in their favourite weekend sport.

Bocce has a very large CALD participation base and with an older demographic who are particularly vulnerable to the COVID-19 pandemic. As a return to Bocce does impose a serious risk to our members, a framework has been developed to effectively and carefully bring bocce back to the Australian sports calendar.

NATIONAL PRINCIPLES FOR THE RESUMPTION OF SPORT AND RECREATION ACTIVITIES

1. Resumption of sport and recreation activities can contribute many health, economic, social and cultural benefits to Australian society emerging from the COVID-19 environment.
2. Resumption of sport and recreation activities should not compromise the health of individuals or the community.
3. Resumption of sport and recreation activities will be based on objective health information to ensure they are conducted safely and do not risk increased COVID-19 local transmission rates.
4. All decisions about resumption of sport and recreation activities must take place with careful reference to these National Principles following close consultation with Federal, State/Territory and/or Local Public Health Authorities, as relevant.
5. The AIS 'Framework for Rebooting Sport in a COVID-19 Environment' provides a guide for the reintroduction of sport and recreation in Australia, including high performance sport. The AIS Framework incorporates consideration of the differences between contact and non-contact sport and indoor and outdoor activity. Whilst the three phases A, B and C of the AIS Framework provide a general guide, individual jurisdictions may provide guidance on the timing of introduction of various levels of sport participation with regard to local epidemiology, risk mitigation strategies and public health capacity.
6. International evidence to date is suggestive that outdoor activities are a lower risk setting for COVID-19 transmission. There are no good data on risks of indoor sporting activity but, at this time, the risk is assumed to be greater than for outdoor sporting activity, even with similar mitigation steps taken.
7. All individuals who participate in, and contribute to, sport and recreation will be considered in resumption plans, including those at the high performance/professional level, those at the community competitive level, and those who wish to enjoy passive (non-contact) individual sports and recreation.
8. Resumption of community sport and recreation activity should take place in a staged fashion with an initial phase of small group (10) activities including full contact training/competition in sport. Individual jurisdictions will determine progression through these phases, taking account of local epidemiology, risk mitigation strategies and public health capability. a. This includes the resumption of children's outdoor sport with strict physical distancing measures for non-sporting attendees such as parents. b. This includes the resumption of outdoor recreational activities including (but not limited to) outdoor-based personal training and boot camps, golf, fishing, bushwalking, swimming, etc.
9. Significantly enhanced risk mitigation (including avoidance and physical distancing) must be applied to all indoor activities associated with outdoor sporting codes (e.g. club rooms, training facilities, gymnasias and the like).
10. For high performance and professional sporting organisations, the regime underpinned in the AIS Framework is considered a minimum baseline standard required to be met before the resumption of training and match play, noting most sports and participants are currently operating at level A of the AIS Framework.
11. If sporting organisations are seeking specific exemptions in order to recommence activity, particularly with regard to competitions, they are required to engage with, and where necessary seek approvals from, the respective State/Territory and/or Local Public Health Authorities regarding additional measures to reduce the risk of COVID-19 spread.
12. At all times sport and recreation organisations must respond to the directives of Public Health Authorities. Localised outbreaks may require sporting organisations to again restrict activity and those organisations must be ready to respond accordingly. The detection of a positive COVID-19 case in a sporting or recreation club or organisation will result in a standard public health response, which could include quarantine of a whole team or large group, and close contacts, for the required period.
13. The risks associated with large gatherings are such that, for the foreseeable future, elite sports, if recommenced, should do so in a spectator-free environment with the minimum support staff available to support the competition. Community sport and recreation activities should limit those present to the minimum required to support the participants (e.g. one parent or carer per child if necessary).
14. The sporting environment (training and competition venues) should be assessed to ensure precautions are taken to minimise risk to those participating in sport and those attending sporting events as spectators (where and when permissible).
15. The safety and well-being of the Australian community will be the priority in any further and specific decisions about the resumption of sport, which will be considered by the COVID-19 Sports and Health Committee.

COVID-19 RETURN TO SPORT FRAMEWORK

The following framework has been constructed from a departmental perspective to ensure that BA are striving for best practices in all aspects of ensuring a safe and effective return to sport. Furthermore, the Appendix contains the 'Australian Institute of Sport's Framework for Rebooting Sport in a COVID-19 Environment' which provides a more generic approach to a return to all sport and more specifically Bocce however the below highlights organisational objectives.

PRIORITY	IMPLEMENTATION STRATEGIES	RESPONSIBILITY	TIMELINE
PARTICIPATION AND FUNDING CREATING A WHOLE OF SPORT APPROACH TO A SAFER BOCCE COMMUNITY	<ul style="list-style-type: none"> • BA and STAs are providing their clubs with necessary guidance around the opening of clubs and return to play. • Distribution of resources associated to providing best health practice at local venues. This could simply mean endorsing WHO regulations and ensuring venues are placing any sanitary advice around their venue. • Providing guidance so that all regularly used equipment (i.e. measures and jacks) are being sanitised on a regular basis. Encouraging venues to create a hygiene practice schedule with venue staff, bocce court maintenance helpers and volunteers. • Adopting sanitary processes as part of the sporting schools' programs. • STAs and Regional Bocce administrators to provide advice and guidance to Clubs on grants and funding available from all levels of government to aid the return of bocce. 	BA – Participation & Programs With support of BA Board & Sectors, Communications and Marketing department	June - September 2020
COMMUNICATIONS AND MARKETING CREATING A CLEAR AND CONCISE MESSAGE	<ul style="list-style-type: none"> • Develop a Covid- 19 Media Plan specially for the Bocce Federation competitions and tournaments. • Establish a Covid- 19 Social Media Plan, focused on the dissemination of community health messages and the best practices endorsed by BA for the sport as a whole. • Create a Covid- 19 Digital transition Plan for the sport, detailing the scheduling of streamed content and the health guidelines/restrictions. • Adapt components of existing marketing campaigns to align with that of a return to bocce for the whole community. 	BA Communications and Marketing With support of BA Board & Sectors – Participation & Programs, Communications and Marketing	July - September 2020
ORGANISATION/ STAFF ADOPTING A TEAM APPROACH AND SECURING THE FUTURE OF THE SPORT	<ul style="list-style-type: none"> • Complete a review of the Business Continuity Checklist provided by Sport AUS to ensure all practices within the organisation are taking place effectively in response to Covid-19. • Development of an organisational risk management plan associated with global health implications and pandemics. • Adopting a weekly routine that is put in place by all bocce court maintenance helpers (i.e. Friday afternoon clean up). • Continually reviewing the staff work plans on a regular basis to assess current working landscape. • Discussion between BA and STAs on the potential restructure of affiliation fees to compensate for these unforeseen circumstances. • Fast track the Bocce One program to provide Premier clubs with second hand (or new) sets of coloured bocce bowls so as to implement the Bocce Ball (OZBocce) programs and run social fixtures and the new Bocce Ball programs to generate trade opportunities for the club and members. 	STA's & Regionals with support of BA Board & Sector BA Volunteers	August - November 2020
ELITE - HIGH PERFORMANCE SUPPORTING AND EDUCATING THE FACE OF THE SPORT	<ul style="list-style-type: none"> • Developing athletes to empower their Clubs to engage in an online world. • Provide online coaching and officiating training to athletes to boost the Club workforce. • Utilising athletes in reactivation opportunities at Clubs. 	Establish a Performance BA department in each State With support of BA Board	August - December 2020

PRIORITY	IMPLEMENTATION STRATEGIES	RESPONSIBILITY	TIMELINE
EVENTS ENSURING BA ARE DEMONSTRATING APPROPRIATE COVID-19 REGULATIONS DURING THEIR MAJOR EVENTS	<ul style="list-style-type: none"> • Endorse WHO regulations and distribute throughout venues to promote general sanitary guidelines for players, officials and spectators. This is inclusive of the WHO Mass Gatherings document. • Consulting host city councils and state government on practices required in respective host state. • Implement a COVID19- checklist as part of the application process to host BA events (Nationals, Junior Open, Raffa Open, AOSBC and the newer Bocce Ball leagues) to ensure host venues are adhering to BA best practice moving forward and the necessary venue facilities required. • Develop a ceremony and presentation process that adheres to social distancing guidelines. • Introduce COVID19- regulations for each BA event for players, officials and coaches to adhere to. • Developing a spectator arena that promotes social distancing and best practices. • Deciding on best allocation of accommodation outlay for events given social distancing regulations. • Practice schedules are designed to create in/out rosters for players/teams. 	STA's Events and Competitions With support BA & Sectors, Communications and Marketing	August - December 2020

COVID-19 RETURN TO SPORT KEY ACTIONS

PARTICIPATION: ENGAGING ALL AUSTRALIANS IN BOCCE

Bocce Ball

A key consideration to the rejuvenation of Bocce within the Australian community is to provide clubs with the ability to access a new Bocce Ball (OZBocce) program for a trial period to enable venues to promote participation in Bocce to a new audience post the COVID-19 pause in activity.

The program aims to offer a modified Bocce Smash style to be known as Bocce Ball to attract new people to the sport in a fun relaxed manner. The plan is to eventually expand this form of bocce into a new bocce league should interest grow in this form of bocce. All marketing and collateral will be supplied by BA, the only responsibility for the clubs is to ensure you manage your bookings.

For clubs to be recognised as part of Bocce Ball, they are required to register and have all club members registered on the BA Membership Database for their acceptance into the program with BA so they are a part of all marketing and communication to the broader community

SBL & BOCCE CLUB CUP

The success of the Super Bocce League (SBL) in Victoria to this point has enabled a platform for this competition to continue to grow within the Australian Bocce community.

A key focus will be given to ensuring that the SBL is heavily promoted to have this implemented into all STA's once competition is accessible again. This also includes the continual development of the Bocce Club Pennant Cup's State and National with Finals of the Club Championship event hosted by Morwell Bocce Club in June 2021.

BOCCE OPENDAY/EVENT/WEEK

As part of Bocce' reactivation within the Australian community, BA in consultation with the STAs will be promoting a Legendary Open Day/Event/Week for any clubs to be involved in. The Open Day/Event/Week is an opportunity for clubs to open their doors to anyone who wishes to try the sport for a day at no cost.

All marketing and collateral will be supplied by BA, the only responsibility for the clubs is to ensure you manage your bookings. For clubs to be recognised as part of the Open Day/Event/Week, they are required to register and have all club members registered on the BA Membership Database for their acceptance into the program with BA so they are a part of all marketing and communication to the broader community.

THE BOCCE DOME

BA is endeavoring to reach out beyond the current bocce community and has developed 'The Bocce Dome' and Bocce Australia YouTube channel which is a new video series to expand the awareness of the sport of bocce to all Australians beyond the current Culturally And Linguistically Diverse (CALD) demographic. It is a weekly online 15-minute show 'talking all things bocce'.

The show was launched in July and will form a connection with the BocceOne programs that will recommence in Premier Bocce Clubs and other locations as the sport of bocce relaunches post the COVID-19.

COVID-19 RETURN TO SPORT KEY ACTIONS

BOCCE HUB: UTILISING AN ONLINE WORLD EFFECTIVELY

BOCCE HUB

With **Bocce Hub** becoming Bocce's main online platform for STA's, Regionals and premier Club Bocce activities, it has become important that this product is enhanced and utilised effectively to mainstream a number of general bocce administration duties.

Premier Bocce Clubs that are aligned with the STAs and that have invested in the **Bocce Hub** platform can already access free digital cloud space including website space with support focused on the creation/ updating of their page(s) on the BA website, BA document repository, Member database with event planning plus more.

BA are also continuing to develop the digital competition management platform, whereby all clubs are able to organise competition and social bocce activities. The database system is a future product that is currently in the planning stage.

BOCCE HUB

COVID-19 RETURN TO SPORT

KEY ACTIONS

MARKETING: RECONNECTING WITH THE COMMUNITY

LOCAL LEGENDS WANTED

With Covid-19 causing all sport to come to a temporary halt, it is critical that as a sport we take full advantage of the re-launch of sport in our communities by ensuring we are at the forefront of people's thoughts as the consumer begins to recommence participation in sport and recreation in more regular formats.

Following the other sports' success of the Local Legends Wanted marketing campaigns, and success of the **#VC Bocce** at the Veneto Club Melbourne, it has been assessed that an adapted campaign tailored to the 'comeback' of bocce will be a critical initiative to publicise the key messaging outlining when the public can return safely to regular bocce activities.

For clubs to be recognised as part of Bocce Ball, they are required to register and have all club members registered on the BA Membership Database for their acceptance into the program with BA so they are a part of all marketing and communication to the broader community

RETURN TO BOCCE TOOLKIT

After considering the key feedback from STA's recently it was clear that venues would still like to see ongoing communications and assistance in understanding the planned release of bocce activities back into the community.

Subsequently, BA have developed the Return to Bocce Tool Kit that provides clubs and STAs necessary information and resources related to the staged release of bocce activities as well as information that can be utilised at local venues to ensure safety procedures are being met moving forward.

The kit also provides access to funding opportunities and cost saving initiatives available as part of the sports comeback following Covid-19, along with checklists that clubs should look to complete to understand their level or preparedness once given the go-ahead to re-commence regular trading and activity.

APPENDIX 1: AIS FRAMEWORK FOR REBOOTING SPORT IN A COVID-19 ENVIRONMENT

Note: Bocce Australia have adopted Lawn Bowls Framework for Rebooting the Sport due to the similarities between the two codes.

Recommended Level A, B, C activities for community and individual sport

	Level A	Level B	Level C
General description	Activity that can be conducted by a solo athlete or by pairs where at least 1.5m can always be maintained between participants. No contact between athletes and/or other personnel. Examples for all sports - general fitness aerobic and anaerobic (e.g. running, cycling sprints, hills). Strength and sport-specific training permitted if no equipment required, or have access to own equipment (e.g. ergometer, weights). Online coaching and resources (e.g. videos, play books).	As per Level A plus: Indoor/outdoor activity that can be conducted in small groups (not more than 10 athletes and/or other personnel in total) and with adequate spacing (1 person per 4m ²). Some sharing of sporting equipment permitted such as kicking a football, hitting a tennis ball, use of a skipping rope, weights, mats. Non-contact skills training. Accidental contact may occur but no deliberate body contact drills. No wrestling, holding, tackling or binding. Commercial gyms, bootcamps, yoga, Pilates, dance classes (e.g. barre, ballet, hip hop, not partnered), cycling 'spin' classes permitted if other measures (above) are met.	As per Level B plus: Full sporting activity that can be conducted in groups of any size including full contact (competitions, tournaments, matches). Wrestling, holding, tackling and/or binding (e.g. rugby scrums) permitted. For larger team sports, consider maintaining some small group separation at training. For some athletes full training will be restricted by commercial operation of facilities.
General hygiene measures	No sharing of exercise equipment or communal facilities. Apply personal hygiene measures even when training away from group facilities — hand hygiene regularly during training (hand sanitisers) plus strictly pre and post training. Do not share drink bottles or towels. Do not attend training if unwell (contact doctor). Spitting and clearing of nasal/respiratory secretions on ovals or other sport settings must be strongly discouraged.	Communal facilities can be used after a sport-specific structured risk assessment and mitigation process is undertaken. 'Get in, train and get out' — be prepared for training prior to arrival at venue (minimise need to use/gather in change rooms, bathrooms). Minimise use of communal facilities (e.g. gym, court) with limited numbers (not more than 10 athletes/staff in total). Have cleaning protocols in place for equipment and facilities. Hand hygiene (hand sanitisers) on entry and exit to venues, as well as pre, post and during training. Thorough full body shower with soap before and after training (preferably at home). Where possible maintain distance of at least 1.5m while training. No socialising or group meals. Spitting and clearing of nasal/respiratory secretions on ovals or other sport settings must be strongly discouraged.	Return to full use of sporting facilities. Continue hygiene and cleaning measure as per Level B. If any massage beds are being used, hygiene practices should include no bed linen except single use towels. Cleaning of treatment beds and key surfaces should occur before and after each athlete treatment. Appropriate hand hygiene before and after each treatment. Limit unnecessary social gatherings. Spitting and clearing of nasal/respiratory secretions on ovals or other sport settings must be strongly discouraged.
Spectators, additional personnel	No spectators unless required (e.g. parent or carer).	Separate spectators from athletes. Spectators should maintain social distancing of at least 1.5m.	Minimum contact of non-essential surfaces to occur and hands on treatment should be kept to essential only. Non-essential personnel should be discouraged from entering change rooms.

Community/ Individual Sports	Level A	Level B	Level C
Bocce Sport	A maximum of 2 people are allowed per boccedome or bocce space at any one time. All players are to use separate measures and jacks (or ensure that the same player on each court uses or rolls the jack). Other bocce bowls equipment cannot be shared between players. (e.g. Measures, Jacks, cloths). Coaching should be limited to no more than a coach and 1 other person at the time and all practicing physical distancing of 1.5m during the coaching session.	A maximum of 10 persons is allowed per Bocce space or indoor Boccedome at any one time. Maintain at least 1.5m between players in the bocce area. Bocce clubs may need to have a booking system in place to facilitate (Level A & B). Bocce clubs with indoor and outdoor courts need to ensure that compliance is achieved in respect to social gathering restrictions.	Coaching is permitted. Resume normal activities (including competition and player numbers but maintain at least 1.5m between players in the bocce area.
